

Unit check-in and handicap entrance

Performance Entrance. This shows the size of the entrance and exit portal. The stairs to the right will not be in place for our event.

This picture also shows the floor that will be underneath our tarp. Ice will be underneath this floor.

Loading dock for prop unloading and loading. This is a drop off and loading area only, no prop vehicles will be allowed to park here.

Warm-up area. Each unit will have the equivalent of one full size gym to utilize during the time allowed.

View from mid stands. This is from a graduation ceremony. The black curtain will stretch the width of the performance floor. The red chairs on the floor are where our tarp will lie and the stands on both sides will not be there.
